

A PRAYER OF THANKSGIVING

by Faith Williams, 2016

Lord, as the months roll by and the seasons change,
And as the temperature falls,
I feel Your presence in the comfort of a warm,
Safe shelter that I can call home.

With winter coming and memories of summer slowly fading,
I see Your presence in the rising sun,
Reminding me that everyday is a blessing.

I have food on my table, and I find You in the rich flavour,
And in the abundance of nutrients I have so easily within my reach.

As my family and friends surround me, I can hear You
In the joyful laughter we share.

The smell of leaves and rain fill the autumn air.
It is within these scents of fall I find the beauty You have created.

God, You, have gifted me with the ability to perceive all of my senses,
Helping me to live life fully,
And for these gifts, I am most grateful to You O' Lord.

Amen
