

A PRAYER FOR COMFORT AND HEALING

By Emily Deveau, 2017

Dear God,

Today I pray for people who have been affected by or are battling cancer and other diseases.

Lord, I pray that You would give them the strength that they need to overcome their illnesses.

I ask that You will provide them with comfort.

Please show them that You are always there, and will always provide for them.

I would also like to pray for the loved ones of those who are battling a disease.

Please give them the strength that they need to support their loved ones.

I also pray for the loved ones of those who have passed away from any disease.

God, give them the strength to move forward in their lives, and help them to keep the memories of their loved ones alive in their hearts.

Amen
