

We Ask You To...

By Joshua Michael Bell, 2017

Dear Lord our God,

Help us to better understand the pain and suffering that the victims and their relatives have gone through in this time of disaster in Indonesia, and around the world.

Help us to comfort them, their family and their friends. We ask You to take those who have died into your kingdom, and into your arms; and to look after and help the families

and people left behind. We ask that those who have left this Earth of Yours, be comforted, and that their families be comforted enough to be able to get through this time as best as they possibly can. Help make us stronger and better in situations such as this one, and in the future when hard times may occur. We ask You to look after us and all others on this Earth.

Help guide us through life and onto the chosen path that You have picked for us to follow.

We ask that You can help to make us better at what we do, say and think.

We ask You to do this for all of us, and for generations to come to this Earth of Yours.

Thank You.
