

## **Lord, Please Help the People of Nigeria**

By Daniella Onyejiaka, 2020

Generous and covenant-keeping God,

You are filled with goodness and grace.

You bless without fail.

I seek Your help, Your compassion, and I seek Your favour,  
as I come before You with this prayer request.

I pray that You open the hearts of the Nigerian government officials to listen to the millions of citizens that are crying for help.

I pray that You open the hearts of people around the world to help with this tragedy that is going on now as we speak.

I pray that the blood of our brothers and sisters that have died at the hands of the SARS agents will not be in vain.

Take care of the souls who lost their lives due to this injustice.

Lord, let the people who have been injured fighting for the Nigerians have a speedy recovery.

Lord, let their bravery that they have shown throughout these hard times not be forgotten.

Father, we pray that You fill their lives with big and small blessings, and surround them with people who love and care for them.

Lord, my God, I pray that the Holy Spirit will go with the rest of the Nigerians who are marching now in the streets of Lagos.

Guide them, like You guarded their ancestors before them, that they shall come out unharmed.

I come to You with this request, and hope that by Your grace, it shall be granted.

Bestow upon our brothers and sisters the strength to keep on fighting, and grant them perseverance, so no matter what challenge is thrown at them, they shall prevail.

I ask this through Christ our Lord,

Amen
